

DCI/IC-75-0112
17 January 1975

MEMORANDUM FOR: [] O/DDI

STAT

SUBJECT: File Review for President's Commission

1. IC Staff files have been reviewed to determine if any exist with names of U.S. citizens or organizations which may pertain to the current investigation of CIA activities. The only category of file that we have found that possibly pertains is that maintained by the USIB Security Committee on unauthorized disclosures. A description of this file was submitted to you by the Executive Secretary of the Security Committee. Some of this same information is duplicated in the USIB Secretariat files.

2. Any other listings or mention of U.S. citizens or organizations we have are governmental in nature and are related to our normal on-going activities. They include our files on administrative matters, various governmental commissions and boards such as the Murphy Commission and the PFIAB, and USIB/IRAC Committees and Subcommittees. Should the Ad Hoc Task Force wish reporting in detail on these, we will be glad to do so.
